THE ONLINE HOME ENTERTAINMENT SYSTEM

"In these tough and adverse times when it seems as if lockdown mode is never going to end, we must learn to appreciate all the online home entertainment options that we have at our disposal".

Alfredo E. Clark Lindo
Corporate Monitoring Director

editor's
note

Options abound. All you gotta do is take your pick, as being a homebody had never been this much fun, thanks to the variety of online home entertainment. Now, let's be honest, if there was ever a time in the history of the world (up to this point, of course) to be forced to stay at home thanks to a world pandemic (and believe me, this is never a good thing) it had to be right now.

How would you have liked to have been stuck at home back in the 1970's (or at any point before that decade) with no smartphones, no Internet, no Smart TV's, no VCR's, no cable TV, no Blue-Rays or DVD's, no video games and having to keep yourself busy with 3 or 4 TV channels and a few radio stations? The 1980's and 1990's were not that much better, although they did offer cable TV, video games and the chance to either rent or buy movies to watch at home. Heck, even the 2000's were no picnic, up until certain Websites and online stream services came along.

Having said all this, the point is that, even in these tough and adverse times when it seems as if lockdown mode is never going to end, we must learn to appreciate all the online home entertainment options that we have at our disposal. It doesn't matter whether you're a movie buff and you can't seem to get enough of watching films on Netflix, Hulu or Amazon Prime Video, or if you're able to binge-watch all the episodes and seasons of your favorite series in a couple of days, the point is that you have content galore.

Of course, there's always surfing the Internet with its seeming limitless search options to find anything your heart desires, thus putting all the information in the world at the palm of your hands. Or, perhaps you're more of a music freak and you enjoy watching and listening to your favorite videos on YouTube and putting together your playlist on Spotify in order to kill time. It could also be that you're just a very social person and enjoy chatting or doing video calls with your friends on your phone, or checking your favorite apps to stay in touch with the latest scoops.

The best part of all this is that, if you're looking to take full advantage of this time at home, all the aforementioned options can help you hone your English language skills and help you become a more rounded and bilingual person. With options such as KOE's Fast & Easy English Language Program Series for native Spanish-speakers who want to learn how to speak this beautiful and necessary language, you should be able to maximize your quarantine experience and become a citizen of the world because you made the most of it and became an English speaker. It would just come down to this question: What's your pleasure?

EL SISTEMA DE ENTRETENIMIENTO ONLINE EN CASA

"En estos tiempos difíciles y adversos en los que parece que el encierro nunca va a acabar, debemos aprender a valorar todas las opciones de entretenimiento doméstico en línea que tenemos a nuestra disposición".

Alfredo E. Clark Lindo
Director Corporativo de Monitoría

A abundan las opciones. Todo lo que tienes que hacer es elegir, ya que ser hogareño nunca había sido tan divertido, gracias a la variedad de entretenimiento doméstico en línea. Ahora, seamos honestos, si alguna vez hubo un momento en la historia del mundo (hasta este punto, por supuesto) para verse obligado a quedarse en casa gracias a una pandemia mundial (y créanme, esto nunca es algo bueno) tenía que ser ahora mismo.

¿Cómo te hubiera gustado estar atrapado en casa en la década de los 1970s (o en cualquier momento antes de esa década) sin teléfonos inteligentes, sin Internet, sin Smart TV's, sin VCRs, sin televisión por cable, sin Blue-Rays o DVDs, sin videojuegos y teniendo que mantenerte ocupado con 3 ó 4 canales de televisión y algunas estaciones de radio? Las décadas de los 1980s y 1990s no fueron mucho mejores, aunque ofrecían televisión por cable, videojuegos y la oportunidad de alquilar o comprar películas para verlas en casa. Rayos, incluso la década de los 2000s no fue un picnic, hasta que aparecieron ciertos sitios web y servicios de transmisión en línea.

Habiendo dicho todo esto, la cuestión es que, incluso en estos tiempos difíciles y adversos en los que parece que el encierro nunca va a acabar, debemos aprender a valorar todas las opciones de entretenimiento doméstico en línea que tenemos a nuestra disposición. No importa si eres un cinéfilo y parece que no te cansas de ver películas en Netflix, Hulu o Amazon Prime Video, o si puedes ver todos los episodios y temporadas de tu serie favorita en un par de días, la cuestión es que tienes contenido en abundancia.

Por supuesto, siempre está el navegar por Internet con sus opciones de búsqueda aparentemente ilimitadas para encontrar cualquier cosa que tu corazón desee, poniendo así toda la información del mundo en la palma de tus manos. O quizás eres más un fanático de la música y disfrutas viendo y escuchando tus videos favoritos en YouTube y armando

nota editorial

tu lista de reproducción en Spotify para matar el tiempo. También puede ser que seas una persona muy sociable y disfrutes chateando o haciendo video-llamadas con tus amigos en tu teléfono, o revisando tus aplicaciones favoritas para estar en contacto con las últimas novedades.

La mejor parte de todo esto es que, si estás buscando aprovechar al máximo este tiempo en casa, todas las opciones antes mencionadas pueden ayudarte a perfeccionar tus habilidades en el idioma inglés y llevarte a convertirte en una persona más completa y bilingüe. Con opciones como la Serie de Programas de Inglés Fast & Easy de KOE para hispano-parlantes nativos que desean aprender a hablar este hermoso y necesario idioma, deberías poder maximizar tu experiencia de cuarentena y convertirte en un ciudadano del mundo que sacó provecho de la situación actual y se convirtió en un hablante de inglés. Simplemente se reduciría a esta pregunta: ¿Qué es lo que te place?

Propuesta de Valor **mission statement,** el corazón de una empresa

Mario Kocher
Coordinador Regional de Monitoría
(Guayaquil, Ecuador)

¿Te has preguntado alguna vez cómo sobresalen las empresas y las grandes marcas que conocemos hoy en día?

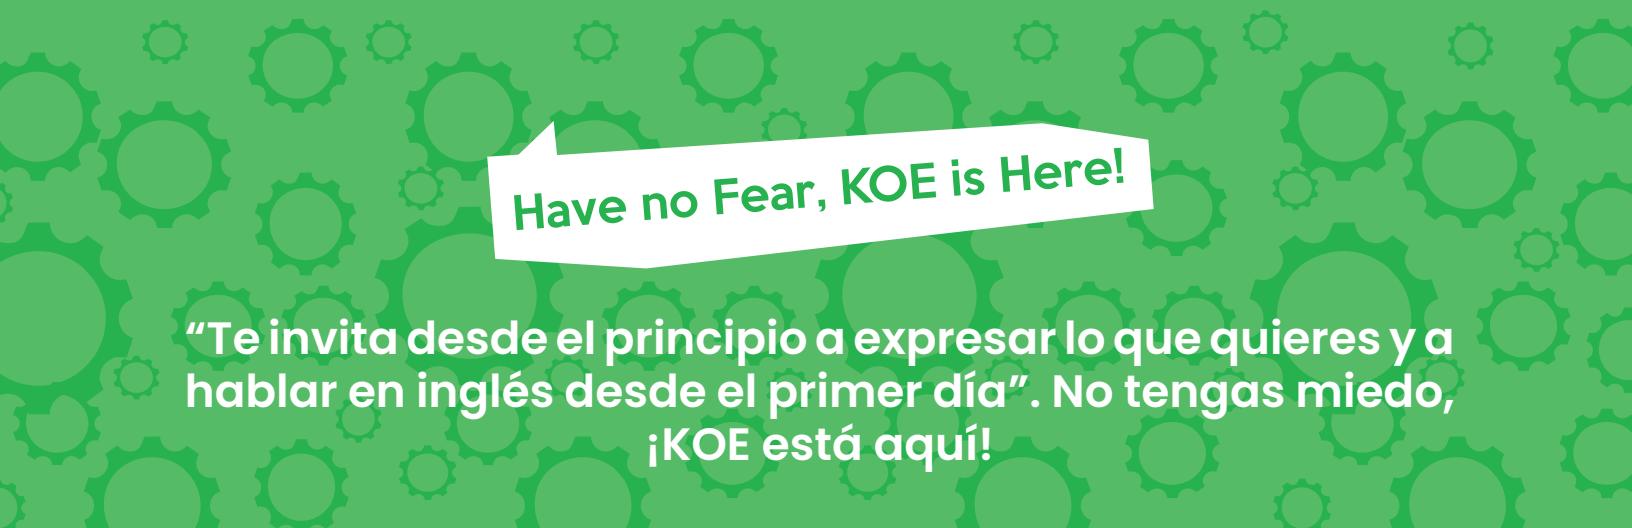

Sin importar si se trata de un pequeño negocio familiar o de una gran corporación, poseer una empresa con una misión y visión clara brinda un propósito a la misma y a sus colaboradores. En algunos casos la misión y visión pueden parecer iguales, pero pertenecen a dos aspectos diferentes de una empresa.

Una propuesta de valor determina la línea de negocios de una empresa, al igual que sus metas y las estrategias para conseguirlas. Una propuesta de valor clara define el lugar en el que la empresa se ubica en su actualidad y las estrategias que quiere usar para alcanzar sus objetivos en el futuro, también puede formar una cultura e identidad dentro de la organización.

De seguro como cliente has recurrido a una marca como **Nike** o **Adidas** si has necesitado comprar artículos deportivos o ropa, tal vez en tecnología has debatido si ver lo último en Samsung o en Apple. Estas marcas se han vuelto referentes porque en sus productos reflejan un claro mensaje de calidad, ya que ofrecen una solución que sus clientes aceptan gracias a lo que estas empresas transmiten con un mensaje detallado y fortalecido de lo que hacen mejor que sus competidores; en otras palabras, sus clientes se identifican con su propuesta de valor. En el caso de querer aprender un idioma, uno muy importante como el inglés, **¿te decidirías por un comercial o por una opción conocida pero que no te ha resultado?**

KOE ha mantenido una permanencia en el mercado brindando a sus clientes una solución a un problema cultural en toda Latinoamérica, el no poder hablar inglés, debido a la carencia del desarrollo de esta habilidad dentro del sistema educativo. La oferta ha sido clara con el mensaje de una Promesa Básica para sus usuarios **“hablar inglés como lengua extranjera”**.

Podrías preguntarte: **¿Cómo adquieres ese conocimiento?** Esto es lo que conocerás como método; **¿cómo sabes si estás aprendiendo bien?** Conocerás la didáctica aplicada para evaluarte y guiarte; finalmente, **¿qué otras ventajas tienen?** Es parte de la sólida oferta tecnológica que te brindará constante innovación. La Propuesta de Valor de KOE optimiza efectivamente su **Promesa Básica** y su oferta en tres frases, que comunican lo que la empresa busca hacer mejor que sus competidores y resaltar sus diferenciadores. Al mismo tiempo, transfiere un mensaje efectivo a todos los segmentos de clientes de sus objetivos plasmados como **Promesa Básica**.

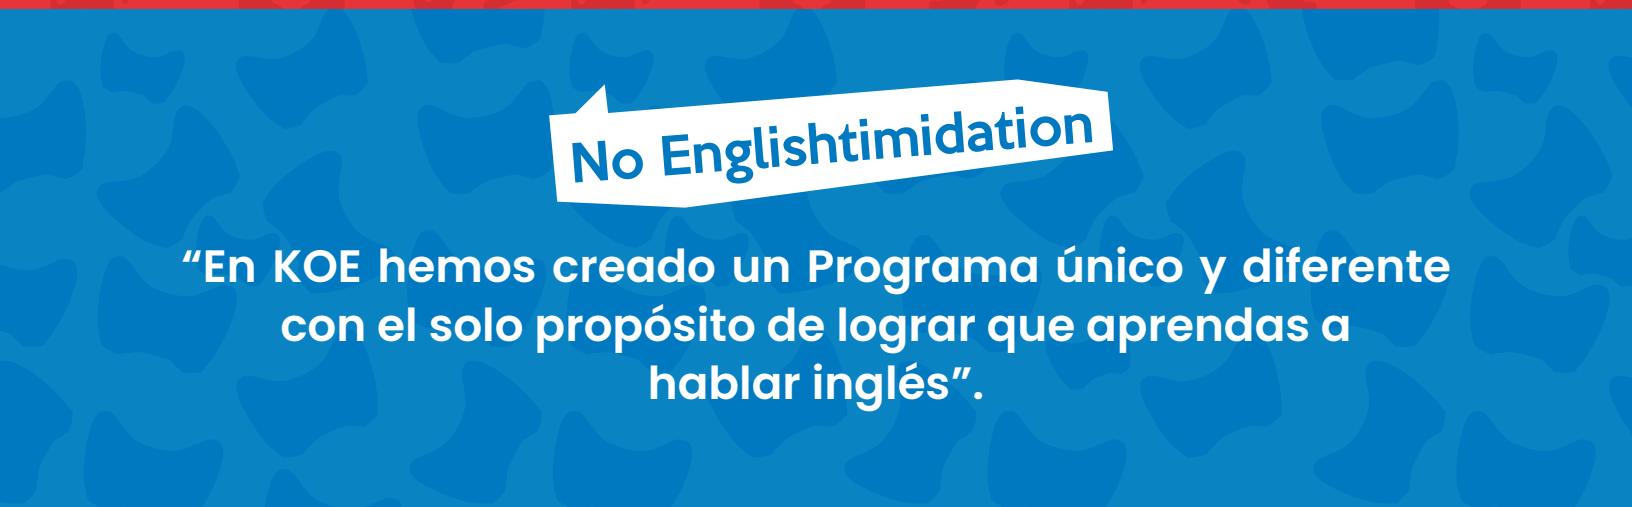

Have no Fear, KOE is Here!

“Te invita desde el principio a expresar lo que quieras y a hablar en inglés desde el primer día”. No tengas miedo, ¡KOE está aquí!

Inglés Cero-Estrés

“Te permitimos asumir la responsabilidad de los resultados obtenidos”.

No Englishtimidation

“En KOE hemos creado un Programa único y diferente con el solo propósito de lograr que aprendas a hablar inglés”.

¿Te identificas con alguna de las frases?

Te invitamos a conocer la **Propuesta de Valor** de KOE para que descubras lo fácil que es aprender a aplicar y hasta llegar a gustar de este maravilloso idioma; aprenderlo por medio de un producto único en su tipo. Conoce los medios que KOE te ofrece para que logres tu objetivo de ser bilingüe, de romper cualquier barrera cultural y expandir tus posibilidades de crecer profesional y académicamente en este nuevo mundo. Si el problema es que no hablas inglés, sólo recuerda: KOE es Hablar Inglés.

La Revolución del Internet y el Entretenimiento

Ángel García
Coordinador Nacional de Monitoria
(México)

En estos días de cuarentena, hemos tenido mucho tiempo para reflexionar sobre los diversos temas que nos definen como individuos, como sociedad y hasta como seres humanos en éste, nuestro mundo ya globalizado. Seguramente, ya has pensado en cómo el Internet ha cambiado tu vida y la de los tuyos. ¿Lo has pensado?

Es un hecho que la rápida propagación del Internet hacia casi todos los rincones del mundo ha traído consigo un sinnúmero de mejoras a nuestras vidas. El Internet ya ha revolucionado los negocios, la banca, las comunicaciones interpersonales, las compras y el mundo del entretenimiento.

Tenemos acceso a la información en cuestión de segundos; los bienes y servicios que anteriormente no estaban disponibles a todo el mundo, hoy se encuentran al alcance de todos.

Antes de la existencia del Internet, buscábamos el entretenimiento viendo televisión, escuchando la radio o visitando espacios públicos tales como, el cine, parques de diversiones, museos, casinos, etc. El Internet llegó para alterar todo esto.

Hoy en día, gran parte de nuestros servicios de entretenimiento están disponibles online, lo que nos da acceso a una gran cantidad de contenidos de audio y video como nunca antes. Podemos ver películas en HD, hacer un tour por los grandes museos del mundo, ver un concierto de nuestro cantante o grupo favorito, apostar en las carreras o al deporte de nuestro agrado, e incluso, si contamos con dispositivos de realidad virtual, disfrutar de la adrenalina que provoca dar un paseo en montaña rusa. Todo esto, desde la comodidad de tu hogar en tu PC, laptop, Tablet, Smart TV, Smartphone o cualquier otro dispositivo con conexión a Internet.

En el presente Newsletter te presentamos los diferentes tipos de "Online Entertainment" que existen, a los proveedores más populares de estos productos y servicios, y algunos de los beneficios que puedes obtener de ellos.

¡Que lo disfrutes!

the most popular

forms of online entertainment

Every day billions and billions of users go online for all sorts of reasons. Whether it's to purchase items or services online, find answers to a specific question, look for directions, do research for schoolwork, listen to music or play online games, it has never been easier to find what we are looking for.

**the
readers'
corner**
advanced

In 2016, it was reported that most Internet users are searching for information about goods and services, but there is still a huge percentage of the population who use the Internet to find different forms of pastime activities on a daily basis. After the introduction of smartphones our access to online entertainment has become even more accessible and we have every reason to believe that the need for entertainment will keep increasing in the future.

These are the most popular forms of online entertainment today:

- Social Media:** It is one of the most popular forms of online entertainment and one of the top reasons for billions of users to go online every day. Today nearly 2.50 billion users are active on one or more Social Media platforms and by 2021 it is estimated that these numbers will reach 3.02 billion. The most popular Social Media platform worldwide is Facebook with over 2000 million users.
- Online Video Games:** Ever since video games gained mainstream popularity in the 1970s and 1980s it has been an enjoyable pastime activity for children and adults around the world. As the Internet evolved, the way people enjoy video games has reached new levels and standards. Today one can play multiplayer games online and interact with other users. One of the most played online video games is League of Legends.
- Online Casinos:** Online gambling is more popular than ever and the online casino industry has had a massive growth since it started in the mid-1990s. In the beginning, the industry mostly consisted of a few online poker rooms and video poker slot machines. Today you can play online versions of anything from classic table games, poker and slot machines, and you can place bets on numerous sports with just a few clicks.
- Music Streaming:** The way we experience music has completely changed with the developments in technology and the Internet. Some of us can vaguely still remember the feeling of having to wait for your favorite song to come on the radio to be able to enjoy it. The most popular site for on-demand music streaming is YouTube. Although it wasn't originally created for music, YouTube is today responsible for 46% of the music streaming time worldwide. Spotify and Apple Music are other popular streaming sites and are both increasing in popularity.
- Video Streaming:** The same way music streaming has become more and more popular, video streaming has had a similar type of development. There is a huge variety of different video streaming apps available these days, which allows you to watch your favorite TV shows and movies whenever you want. Netflix, Hulu and Amazon Video are among the most popular paid streaming services for watching TV shows and movies.

Read the text and answer the following questions:

- When did our access to online entertainment become even more accessible?
- Which is the most popular Social Media platform worldwide?
- When did video games gain mainstream popularity?
- Which is one of the most played online video games?
- What industry has had a massive growth since it started in the mid-1990s?
- Which is the most popular site for on-demand music streaming?
- What are other popular music streaming sites?
- Name three of the most popular paid streaming services for watching TV shows and movies.

modern forms of online entertainment

the
readers'
corner
intermediate

We are creatures that love to be entertained. We often think about our ancestors and wonder what they did for fun back in the Stone Age. They were probably busy surviving or chasing some wild beasts, which seemed eatable at that time. We, on the other hand, cannot imagine our lives without Facebook and the marvels regarding our modern entertainment industry.

We used to go to the movies every weekend. Those who had VCRs were the lucky ones because they could rent a movie every day. Today we have streaming services like Netflix and a long list of free streaming sites that offer an incredibly diverse choice of movies or series that can satisfy anyone's taste for cinematic pleasure.

Every genre or sub-genre is available with a lot of new titles coming in every day. Great works of cinema pile up just for the sake of our entertainment. They progress in quality plus quantity, always pushing the limits of our perception about proper cinema. You can lose yourself in that sea of new plus old titles that constantly fill this ever-growing catalogue of modern cinema achievements.

Even reading a book is not what it used to be. People used to go to bookstores or libraries and enjoyed that smell of a brand new printed edition. Sitting in a coffee shop and drinking your coffee while browsing through your Sunday newspapers used to be a sacred ritual. Now we read e-books on our tablets or enjoy audiobooks with our smartphones. We are not saying that things got better or worse, we just say things changed rapidly.

Online content is constantly adjusting itself to audiences and once their tastes are shifting in a different direction, so does the industry. The online experience should provide a perfect mix of entertainment that starts with one good movie and progresses into a casino night of playing your favorite games online. Maybe one would rather spend some quiet evening reserved for reading e-books that will end with watching a bunch of funny clips of his choice. It is all good as long as you enjoy it.

Movies, e-books, video games or online gaming, the choice is yours. You deserve to be entertained and everybody has the right to be amused after a hard day of work. So work hard but play hard also as you weigh your options in this department. With so many materials to choose from, one can feel overwhelmed by the colossal magnitude of this industry. Enjoy it all to the fullest and try out different forms of entertainment as your experience provides important feedback that will, in turn, shape the future of online leisure time.

Read the text and answer the following questions:

1. What do we think and wonder about our ancestors?

2. How often did we use to go to the movies?

3. Who were the lucky ones because they could rent a movie every day?

4. Where did people use to go to enjoy the smell of a brand new printed edition?

5. What used to be a sacred ritual?

6. What should the online experience provide?

7. When they said: "the choice is yours", what were your options to choose from?

EVERYTHING YOU ALWAYS WANTED TO KNOW ABOUT **ONLINE ENTERTAINMENT...** BUT WERE AFRAID TO ASK

What is online entertainment?

Online entertainment basically comprises accessing material, such as music and movies, over the Internet. This can be either watching or listening to programs as they happen (live streaming) or to keep them on your device to enjoy at a later time of your own choosing (downloading).

What forms of online entertainment are available?

There are many different forms of online entertainment, such as online books (e-books), online music (streaming or downloading), online TV, online movies (streaming or downloading) and online games.

online tv

These services are available for most major channels and there are a few different ways in which you can stream the content. You can either watch recorded TV shows which are stored online after their original broadcast or watch live TV which shows programs in real time.

YouTube is possibly the easiest streaming service to use. It is free and massively popular for everything from music videos, full TV programs and movies as well as silly clips.

Music can be accessed online using various means and there are a vast range of genres available at your fingertips. You get the possibility of listening to specific songs online, searching for particular songs, albums or artists using streaming services. You can also create your own playlists to listen to your favorite songs, purchase and download music online to enjoy at your home.

Spotify is currently the most popular site for streaming music and it offers both free and paid-for accounts.

Apple's iTunes is the biggest online music store but it also offers films and TV programs, as well as apps and books.

Soundcloud is a place where up and coming artists and existing stars upload their music, providing you with an opportunity to find new sounds across many different genres.

Those with subscriptions to services such as Amazon Prime Video, Hulu, Netflix, Disney+, HBO Now, Apple TV+ and Google Play can also access a range of films online. You will be able to watch recent releases and old films online via streaming.

Similar services are also available to subscribers of digital TV packages (such as Virgin Media or Sky) and allow users to log in to their account and view films online.

.....

JOKE BREAK

.....

So glad Netflix has dozens of British TV dramas available because I'm a big fan of all eleven UK actors.

.....

They can be accessed online to provide users with the chance to read from devices. You can search for popular titles, new releases or old books, enjoy a range of free downloadable books with certain services (e.g., Kindle), purchase new books to read on apps downloaded on your computer or specific e-reader devices and/or download purchased books to your e-reader to enjoy on the move.

Google Play is the official outlet to download films, TV shows and much more if you have tablets or smartphones which use the Android operating system.

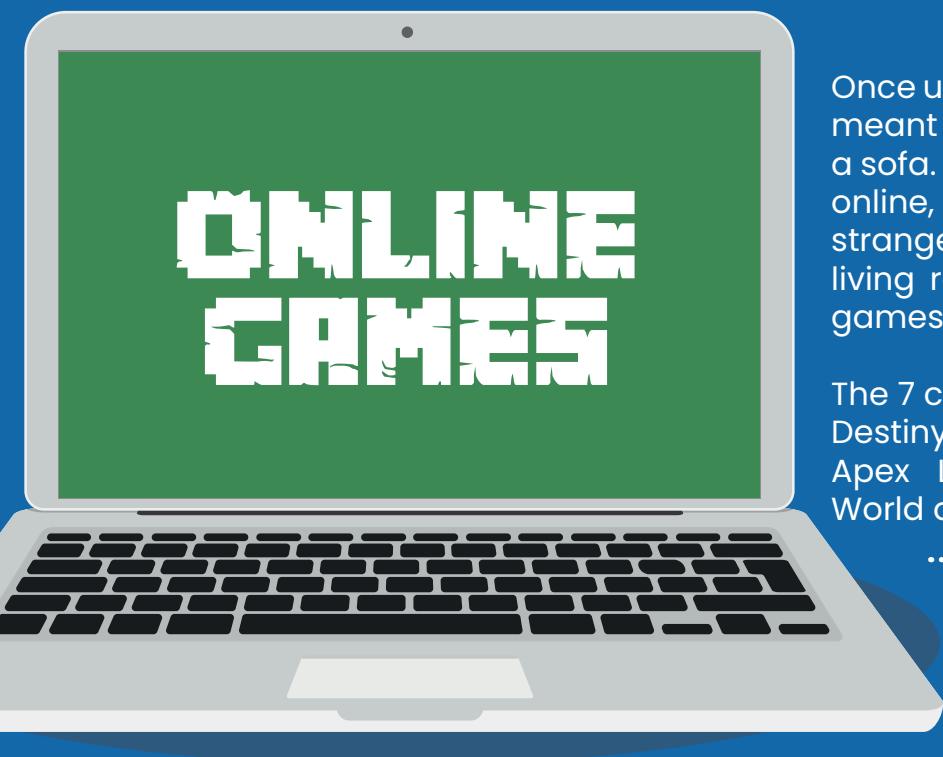

Windows Phone App Store is designed for use with Windows Phone devices and also offers access to a great range of content to download on your device.

.....

As well as accessing music in the form of individual files, you can also access online radio stations to enjoy recent or old hits. You just have to visit the Website of the radio station you want to listen to and you'll find live broadcasts to hear the latest music, news and commentary, and also listen to podcasts or interviews stored on the radio Website.

.....

Once upon a time, playing games with friends meant inviting them over and crowding onto a sofa. Now, most multiplayer gaming is done online, connecting us with both friends and strangers around the world from our desks or living rooms. There are thousands of online games to choose from.

The 7 current most popular online games are Destiny 2, Rainbow Six Siege, Sea of Thieves, Apex Legends, Minecraft, Monster Hunter World and Fortnite.

What are the benefits of accessing entertainment online?

Some of the benefits of using online sources for entertainment purpose include:

- Convenience – You can choose from a wide range of easily accessed material.
- Cost – You will find a lot of free content.
- Timing – You get to choose when and where to watch and/or listen to the material.
- Learning, practice and/or improve English – You will find a great deal of material in English.

Is it secure to access online entertainment?

Online streaming and downloading are both extremely secure as long as you are using a reputable site such as those we have already mentioned. Sadly, the Internet is also littered with unofficial sites offering illegal downloads. So, you should always take care to only stream or download from a Website you can trust. Look for signs that the Website you are visiting is secure such as:

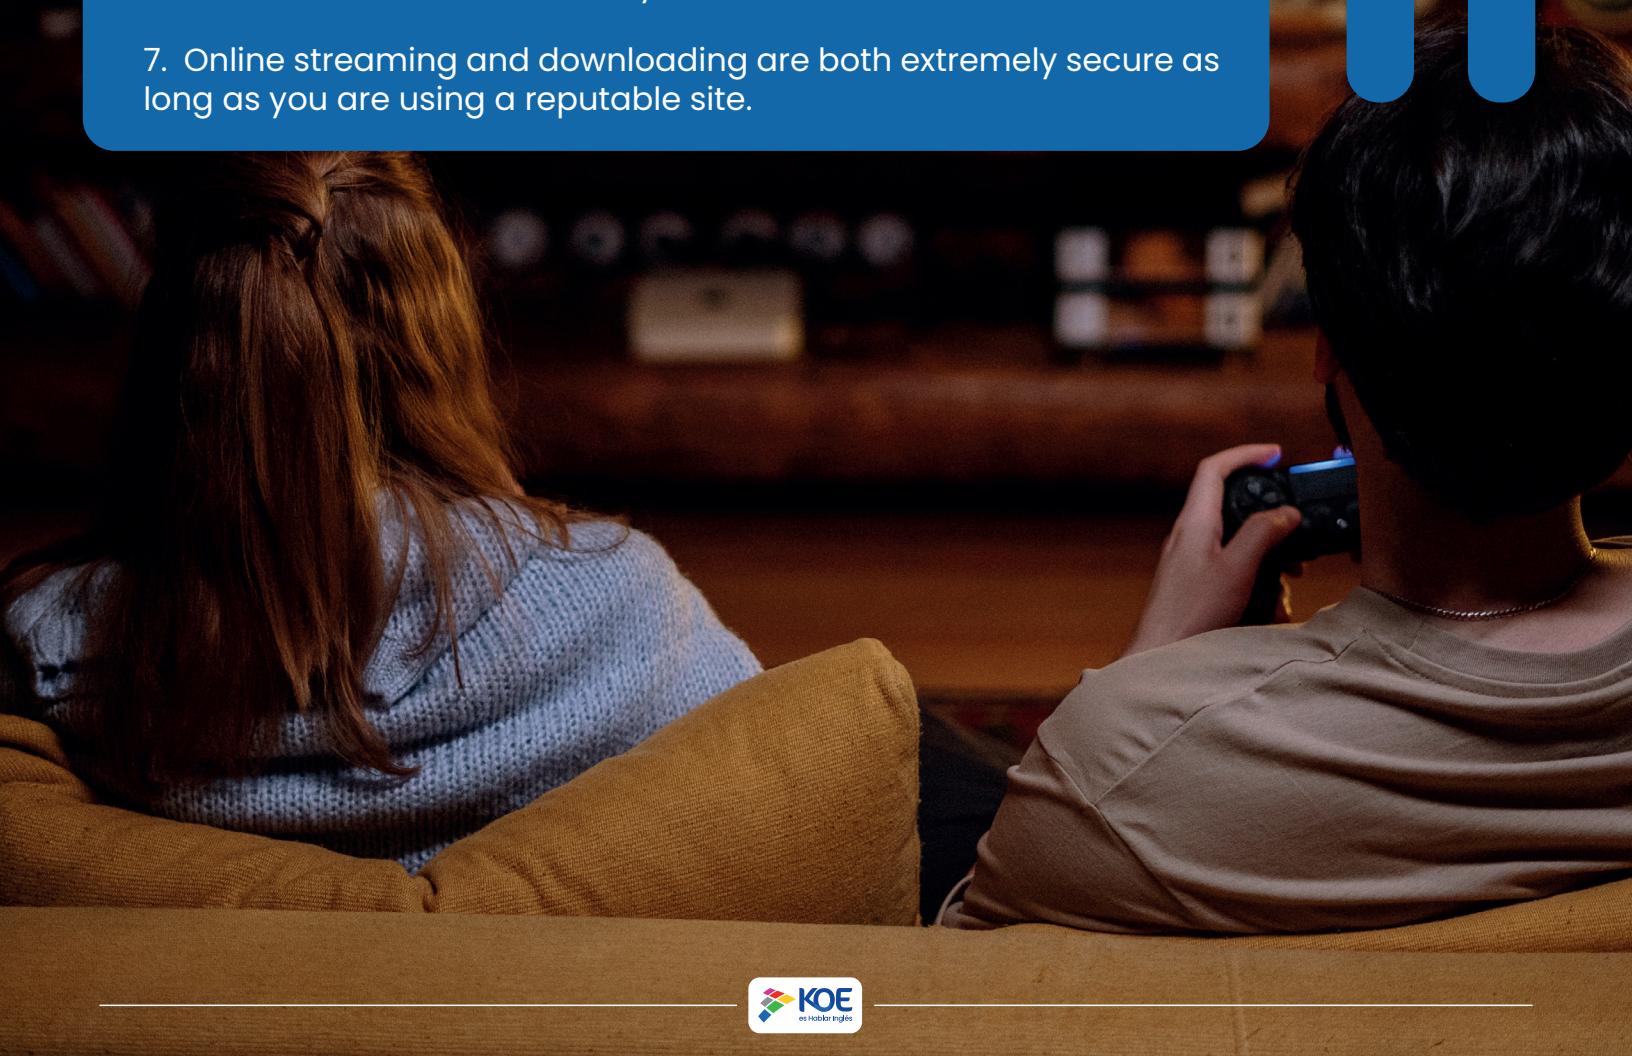

- A padlock symbol in the address bar.
- An address that begins with “https” (the ‘s’ stands for secure).
- A green address bar.
- Always make sure your anti-virus protection is up to date.
- Only use well-known or reputable sites for streaming and downloading.
- Keep all login and account details safe, secure and private.

true or false

FINISH HIM

T F

1. Online entertainment basically comprises accessing material over the Internet.
2. Live streaming means that you keep the material to enjoy at a later time.
3. Downloading means that you can either watch or listen to programs as they happen.
4. YouTube is possibly the easiest streaming service to use.
5. Spotify is currently the most popular site for streaming music.
6. All the online entertainment you can find is free.
7. Online streaming and downloading are both extremely secure as long as you are using a reputable site.
